

OTTAWA INDIGENOUS COMMUNITY MEMBERS' FIRST YEAR EXPERIENCES DURING COVID-19

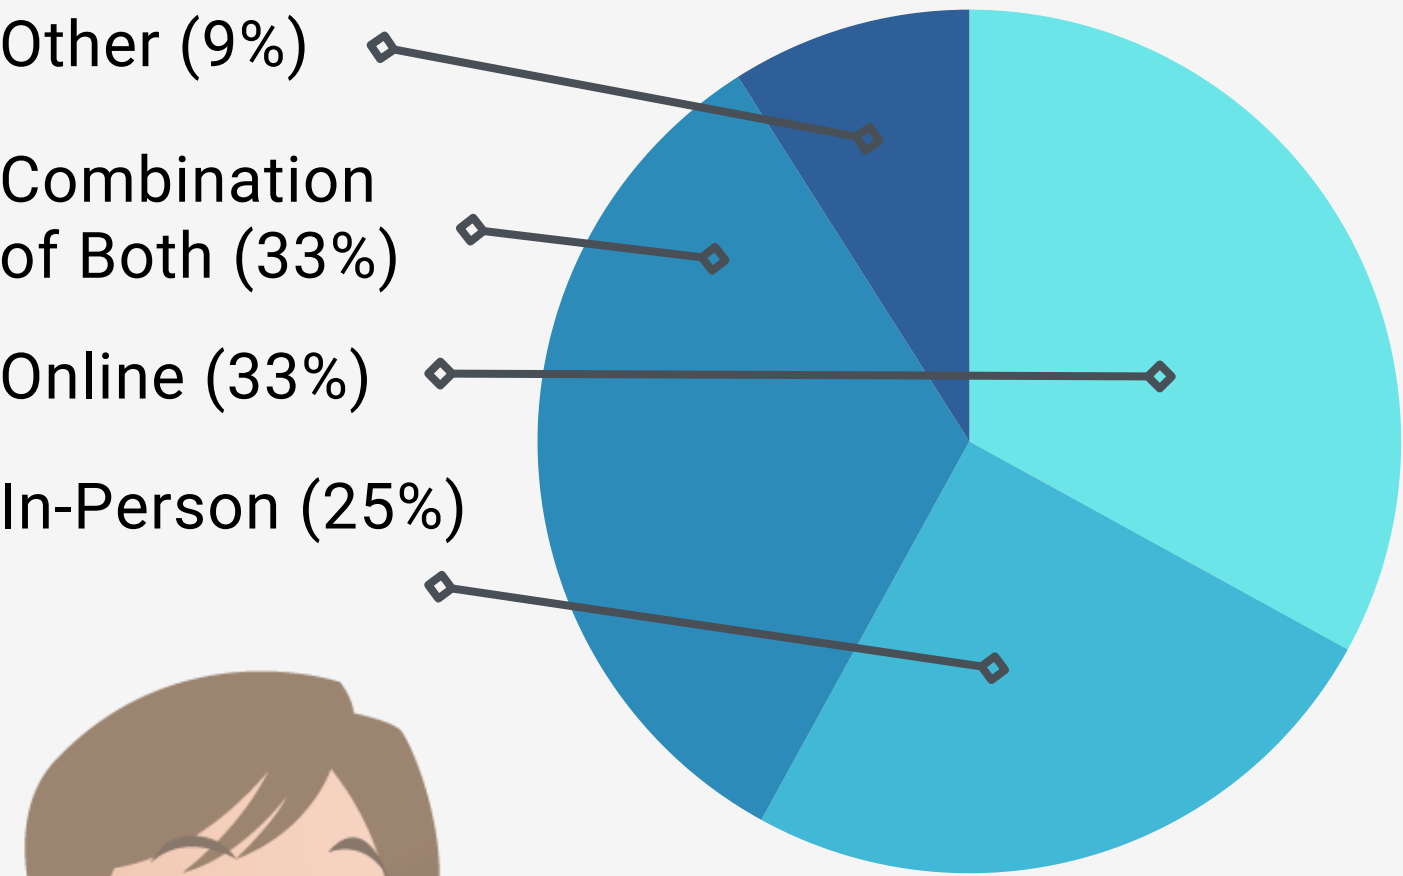

Section 5: Children and Education

Results are from the 2021 COVID-19 research survey of 1077 Indigenous community members in Ottawa that described their experience of COVID-19 from March 2020 to June 2021.

IMPACT OF COVID ON FAMILIES WITH CHILDREN

SEPTEMBER 2020 LEARNING CHOICES

CHILDREN'S STAGE OF LIFE

“My oldest child is twelve and has been falling into a period of depression and has developed insomnia; I believe this is due to being isolated from her friends and other peers, as well as the stress of online learning.”

CONCERNS ABOUT THE WELLBEING OF CHILDREN

Parents had the following concerns about their children (ranging from sometimes to always concerned):

- Overall Wellness (91.8%)
- Social Interaction (90.5%)
- Learning Development (88%)
- Language Skills (86%)
- Child Development (85.2%)
